Handicaps Listings

With the new World Handicap System now up and running, Handicap Indexes are being adjusted more frequently than previously by the system. ***As such it has been decided that, while the handicap lists will still be posted on the Notice Boards on a regular basis, these will be for general information only.*** It is therefore the responsibility of each player, that he or she checks what their Handicap Indexes are, and therefore what their Course Handicaps are, prior to playing a match, or playing in a competition. This can be done using various apps, or by using the Touch Screen in The Driscoll Room.

My England Golf app

New functionality is coming to the 'My England Golf' app, which will allow golfers to post scores from general play rounds to count towards their Handicap Indexes. *Check to see if your App has these functions!* Players will be required to pre-register their 9-hole or 18-hole round on the app. Geo-location will ensure this can only be done within proximity to the course.

Score integrity will be maintained by an enforced time-lag between the registering of intent to the time when a score can be inputted. A golfer's final score must also be verified by a playing partner who has witnessed the round and holds a WHS handicap index.

Casual Round Protocol

When a member wishes to submit a Casual Round – formerly called a Supplementary Round – they must sign the Casual Round book, located at the competition Entry Sheet station, and then input their score, either by Touch Screen or an app such as the howdidido app. Then deposits the card in the box to the **left** of the Touch Screen. If for some reason there is difficulty inputting their score, then the card can be deposited in the box to the right of the Touch Screen, and a member of the Competition & Handicap Committee (C&HC), will arrange to input the score.
